Meeting with PennDOT on Catharine Properties/ Heller's Quarry

1. They have to fill out an application
2. PennDOT will have to do a road study and take pictures.
3. Then they have to get Permits
4. If road is weight limit then they need to get a Posting Authority Excess Maintenance Agreement
5. As long as they follow the regulation and follow the permit permission then they can continue the process in opening the Quarry.

Right now PennDOT cannot do anything, because they have not applied for an application.
